Sales Tax

Rabin Worldwide is required by law to collect the applicable sales tax on all items sold unless at the time of purchase the buyer provides the appropriate resale certificate, properly completed, together with some identification which proves the individual is in the business of buying and selling such merchandise within the state.

Sales tax will be refunded to out of state buyers when one of the following is provided:

Dealers must provide a properly executed bill of lading showing shipment by a third party carrier to an out-of-state location, designating Rabin Worldwide as the shipper accompanied with a properly completed resale certificate from their state, together with some identification which proves the individual is in the business of buying and selling such merchandise within that particular state.

Where the state allows exemption from sales tax for buyers who runs a manufacturing business which is known to make use of the kind of equipment being purchased, the buyers must also provide proof that the items will be used for manufacturing within the particular state, and a properly executed bill of lading showing shipment by a third party carrier to an out-of-state location, designating Rabin Worldwide as the shipper.

Out of state buyers who are taxable in their state, must show proof that payment of sales tax was made on the merchandise purchased and a properly executed bill of lading showing shipment by a third party carrier to an out-of-state location, designating Rabin Worldwide as the shipper.

Procedure for Equipment Disconnect and Removal

Insurance Certificate Required from Truckers / Riggers

Following are the terms for equipment disconnect and removal. All buyers, rigging contractors (herein referred to as Dismantlers) and their helpers, who participate in the disconnect and / or removal of the plant equipment are required to review, acknowledge, accept and abide by the following terms before commencement of any removal activities.

**Rigging is the total responsibility of the Buyer.
No assistance will be provided. No extensions of the time will be granted.**

1. An original stamped, paid invoice must be presented to authorized Auctioneer Personnel for removal.
2. Buyers and any Dismantler retained by the buyer shall bear the sole and absolute responsibility for removal of purchased items.
3. It is the responsibility of all Dismantlers to present authorized Auctioneer Personnel with an original Liability and Workman's Compensation Insurance Certificate in the amount of at least \$2,000,000.00 (two million dollars) naming RABIN WORLDWIDE, prior to commencing any removal of equipment that requires electrical disconnect, acetylene burning, or lift truck assistance.
4. Should any pits, floor bolts, or hazard of any type exist after removal of equipment, it is the responsibility of the Dismantlers to guard these areas using generally accepted safety practices such as safety tapes, pipes or bars welded in place, or suitable safety barriers, acceptable to Auctioneers. All floor bolts and /or anchoring fasteners remaining after equipment is removed are to be cut flush to the floor and sanded smooth by the Dismantler and the area left broom clean. All electric wiring and utilities must be safely disconnected from the first connection joint and all supports, brackets, braces and all conduit between the floor and bar joints must be removed by the Dismantlers.
5. Machines are to be staged for loading in the area assigned by Auctioneers.
6. Any hydraulic fluid or oil leak is the responsibility of the Dismantlers to clean up. Miscellaneous conduit, wires and threaded studs in cement must be removed.
7. It is the responsibility of the Dismantlers to disconnect all electrical power to the machines. Further it is the Dismantlers responsibility to make absolutely sure that the power is off to the machine before disconnecting. If you are not sure if the power is properly disconnected, contact appointed Plant Electrical Engineer or Auction Office. Do not consult with Auction Checkout Personnel.
8. No trucks are to be left running in an enclosed building. Auctioneers are not liable for equipment and tools left on premises.
