36	1	Dock Float Business - PolyFlange dock floats come in 3 footprints: 2'x4', 3'x4', and 4'x4'. Specific sizes currently available are listed here - Float Sizes: 2'x4' depths: 8", 12", 16", 18", 20", 22", 3'x4' depths: 12", 16", 18", 20", 22", 24", 4'x4' depths: 12", 16", 18", 20"

36A	1	Waste Cart Business - The waste business consists of two product types. The first and largest product type is proprietary, blow molded, semi-automated waste carts. Semi-automated waste carts can be manually dumped or dumped using a semi-automated garbage truck which picks up the cart by means a lift bar slipped over a "hook" on the back of the truck. The proprietary waste carts are marketed to private waste haulers and municipalities under the Ameri-Kart Waste Handling Products brand. The second product type is plastic liners for "street furniture". Street furniture usually consists of fixed waste receptacles made of steel or other durable material which have a removable plastic liner. The plastic liners are taken in and out for emptying.
36B	1	Universal Waste Cart Business - A blow molded, universal waste cart design has been developed to replace the long lived, successful, 3190 blow molded, semi-automated waste cart. The new design was created to serve the growing universal cart market with a lower cost, fully universal design that retains the advantages of blow molding.
